Safety Gate Alerts

Alert number	SR/03006/26

Notifying country	France
Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	208 V2 - ICE, MHEV
Brand	Peugeot
EC-type approval/model	e2*2007/46*0639*39 e2*2007/46*0639*40 g11*2018/858*00660*03
Production dates	17.02.2026 - 05.03.2026
Company recall code	M6H
Product description	Passenger car. VIN: VR3UPHPY5S5133316 - VR3UPHPX6T5049191.
Risk type	Fire
Risk description	The coolant used may not be compatible with the vehicle’s cooling system. Over time, this could cause corrosion, blockages, damage to hoses and joints, and coolant leaks, reducing cooling performance and potentially causing the engine or hybrid components to overheat and leading to reduced vehicle performance or loss of propulsion assistance.

	Moreover, a coolant leak could also cause an electrical short circuit in the system, increasing the risk of fire.
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.
Country of origin	France
Measures taken by economic operators	Recall of the product from end users Manufacturer
Date of entry into force	05/10/2026
